

RAKESH KUMAR

ACADEMIC PROFILE

Degree/Certificate	Institution	Percentage/CGPA	Year
B-Tech	Computer Science and Engineering IIT (BHU), Varanasi	7.86	2025
CBSE (XII)	Jawahar Navodaya Vidyalaya, Bundi, Rajasthan	90.00	2021
CBSE (X)	Jawahar Navodaya Vidyalaya, Jodhpur, Rajasthan	92.80	2019

SKILLS

- **Programming Language** : C, C++, Python
- **Tools And Technology** : Django, Flask, MySQL, SQL Server, HTML, CSS

INTERNSHIP/TRAINING

Summer Intern | LTIMindtree May 2024 - July 2024

- Performed **web scraping** on Zaubra-Corp, extracted data of over **2.7 million companies** and stored it in **MySQL**.
- Developed a **Flask-based front-end** for streamlined database interaction and data visualization for the scraped data.
- Contributed to the **Frontend Development** of ML-based application for **Extracting Transaction Details** from payment screenshots.
- **Exposure:** Python, Flask, BeautifulSoup, Render, GitHub, Cron-job, MySQL, HTML, CSS, JavaScript.

PROJECTS

OTT Ratings July'22 - Nov'22

Guided by Dr. Amrita Chaturvedi

- Developed an OTT Ratings platform using **Django**, allowing users to view ratings and comments on web series.
- After creating an account, users can also rate and comment on web series, including their seasons and episodes.
- Users have multiple options to **sort** and **filter** series by preferences, or they can **search** directly by name.
- Utilized **Django models** to manage user details, ratings, comments, and web series data in the backend.
- **Exposure:** Django, Python, MySQL, HTML, CSS, JavaScript, Bootstrap

Railway Ticket Booking System July'23 - Nov'23

Guided by Dr. Ravindranath Chowdary C

- Developed a comprehensive IRCTC-like ticket booking system using **Spring Boot** and **MySQL**.
- Implemented sophisticated database functionalities for managing **bookings**, **cancellations**, real-time **seat availability**, resource-efficient **seat allocation**, and dynamic handling of **waiting lists**.
- To ensure efficient use of resources, the system merges canceled sub-route seats with adjacent available routes to create longer routes for the same seat and then allocates these seats to passengers on the waiting list.
- **Exposure:** Spring Boot, MySQL, Stored Procedures, Triggers, HTML, CSS, JavaScript

Movie Recommendation System using K-Nearest Neighbor Jan'23 - Apr'23

Guided by Dr. Bidyut Kumar Patra

- Developed a user-based KNN model with collaborative filtering, leveraging **Cosine Similarity** to measure user similarity and provide personalized movie recommendations based on historical ratings.
- Achieved final recommendations with **MAPE values of order 10^{-1}** using K-Nearest Neighbor model.
- **Exposure:** Recommendation System, K-Nearest Neighbor, Python, pandas, NumPy

HONOURS AND ACHIEVEMENTS

Competitive Programming

- Maximum rating of **1469(Specialist)** on **Codeforces**.
- Maximum rating of **1494** on **Codechef**.
- Secured **Global Rank 50** in Codechef August Long 2022 Division 4.
- Secured **Global Rank 1915** in Codeforces Round 852 (Div. 2).
- Secured **Global Rank 2199** in Educational Codeforces Round 142 (Div. 2).

Academics

- Awarded **NSP Scholarship** for meritorious academic performance.
- Awarded **FFE Scholarship** for meritorious academic performance.
